Dear [redacted];

STAT

Your radiogram has just been received and I am certainly greatly pleased and relieved that your doctor assures you that your condition is perfectly normal and, further, that the long-awaited elevator repair is now completed.

On last Friday [redacted] father and brother came to my office and we had a rather lengthy talk relative to your situation. [redacted] brother was of the opinion that it would be perfectly all right for you to stay over there if you did not have to walk upstairs. I sincerely hope that the repair of the elevator has eliminated the necessity for your walking upstairs, and that you will be able to stay in the Mediterranean Bureau.

STAT

STAT

I wrote [redacted] just a few days ago, asking him for his recommendation in your case, and, undoubtedly, I shall be hearing from him in the very near future.

STAT

With my sincere best wishes for your rapid and complete recovery,

Sincerely yours,

L. A. WHITE
